25X1ACCUNTING FOR FUNDS FOR PRELIMINARY WORK ON 1952 INVESTMENT PROJECTS (3 pp; German; date of 71951-10 Jan 52; 25X1Aof report: 10 Jan 52; distribution: 16 Jul 52)

ment projects.

This 3-page document, a carbon copy of the original, is a letter from the business 25X1X department of the Ministry of Metallurgy and Ove Mining to the investment planning department of the same Ministry in which the business department submits an accounting fix for funds of used in 1951 and up to 10 January 1952 for preliminary work on 1952 invest-

The greater part of the report consists of tables which are headed as follows: Consecutive number; exact designation of the project; total value of the project (in 1,000 DM amount to be spent for the project in 1952 (in 1,000 DM). Amount used for preliminary work on 1952 investment projects: total (in DM); of that amount -- for preliminary engineering work (in DM); for preliminary building work (in DM).

The tables are divided into two sections: on main installations and on auxiliary installations. The names of enterprises under the Ministry of Metallurgy and Ore Mining which are submitting an accounting for funds are listed on the left margin (under the heading "exact designation of project").

Total spent for preliminary wotk on 1952 investment prjects:

Main installations Auxiliary installations 1,365,155.00 DM 68.539.51 DM

Return to CIA Library

Grand total

1,433,694.51 DM

THIS IS AN ENCLOSURE TO

DO NOT DETACH

1. Prices and sorts of yarns used by the Czechoslovak Textile Industry :

The Czechoslovak Textile Industry uses the following sorts of yarns:

- Vicugna yarn I., II., V., without synthetic fibres
- Vicugna yarn II., IV., VI. with synthetic fibres
- Carded wool yarns for inland
- Carded wool yarns for export
- Carpet wool yarns
- ſ Carpet manipulated yarns
- Carpet yarns with hair Carpet waste scrap yarns
- Linen yarns
- Cotton carded yarns signle
- Cotton carded yarns treated
- Worsted yarns
- m Wool crapes
- n Mixtures of synthetic and woolen fibres
- o Worsted synthetic fibres
- p Other worsted yarns
- q Hand-knitten yarns

The above mentioned sorts of yarns are being bought out from national enterprises which produce them by another national enterprise TEXTILNI TVORBA, Model- and Sample- Making Enterprises, PRAHA II, Klimentsak 50.

TEXTILNI TYORBA then distributes yarns to national enterprises which need them for production.

In the enclosure will you, please, find the price-lists for all sorts of yarns.

Vicugna yarn .

GUIDE to the Price-list of worsted yarns

- 1. The quoted prices of coarse and colored yarns, single and treated (skane) of usual throwing at bobbins, are the so-called planned prices and are valid since January 1, 1950. These prices replace prices calculated in accordance with regulations (scheme) of NUC (= Price Control Board). The quoted prices are free the factory or loading station of the dispatcher.
- 2. To these planned prices of yarns must be added by buyer: average cost of forwarding by rail, money for lending boxes and bobbins (dutinky) as well as expenses connected with returning of boxes and bobbins (dutinky) (paid) and these expenses must be quoted for 1 kg of yarn.

The highest allowed amount is 3 Kcs for 1 kg of yarn.

- 3. In 1950 yarn shall be sold and bought from the producer (yarn spinning mills) for planned prices quoted in price-lists.
- 4. In case that the buyer would prefer another throwing of yarn or another treatment, different to the usual one included in prices, he shall pay further following costs:
 - a. sharp throwing (with single and double yarns throwing exceeding the usual throwing of sorts and numbers of yarns in question up to 25 %).
 - b. special warp throwing (e.g. necessary for making fine gloves)

up to the metr:		5 Kcs
metric numbers		7 Kcs
_ 11 _	57 – 60	10 Kcs
_ " _	61 - 64	12 Kcs
_ H _	65 – 70	15 Kcs

- c. Special throwing (with single and double yarns throwing exceeding the usual throwing of sorts and numbers of yarns in question more than 25 %).
- d. Inverse throwing :

price-increase with single yarns up to the quantity not exceeding 300 kg Kcs 2,- for 1 kg price-increase with treated (skane) yarns up to the quantity not exceeding 300 kg Kcs 4,- for 1 kg

Prices for reeling single and multiple worsted yarns:

6. Prices of yarns were calculated when for making is used worsted material (cesanec) of the following prices:

quality	Kcs/kg free factory	quality	Kcs/kg free factory	
80 's warp-thread 80 's 74 's warp-thread 74 's	215	60 's warp-thread 60 's 58/60 's 58 's	145 135 132 127	
70 's warp-thread 70 's 66 's warp-thread	201 181	56 's 52/54 's 50 's	113 88 81	
66 's 64 's warp-thread 64 's	164	48 's 46 's 44 's	75. 69 62	
60/64 's warp-th.		40 's cellular tissue	58 64	

7. For spinning and other treating (skani) following rates were used :

metric No.	coarse spinning	coarse treating (skani)	colored spinning	colored treating
12 14 16 18 22 24 26 28 33 34 44 46 48 55 55 66 66 77 78 86	25.80 27.70 28.80 27.60 29.10 28.90 31.20 29.10 32.40 35.70 36.80 39.10 41.60 41.60 42.60 43.70 45.10 46.50 48.10 57.50 57.50 57.70 57.70 57.70 87.40	8.10 8.10 9.10 9.10 9.90 10.80 12.12 12.90 14.10 15.12 15.90 17.10 18.30 19.50 17.10 18.30 19.50 21.50 22.50 24.10 25.50 27.10	55555555555555555555555555555555555555	9 9 10.20 11.10 12 13.20 14.10 15 16.50 17.70 18.90 17.70 18.90 17.70 18.90 17.70 18.90 17.70 18.90 17.70 18.90 17.70 18.90 17.70 18.90 17.70 18.90 18.90 19.9
		- • -	- · · · ·	-

- 8. The calculated planned prices include the following rates for faulty yarns (waster) for 1 kg:

 - . . Kcs

SECRET

- 5 -

SECR

- 9. 1 Kcs per 1 kg is calculated on average for delivery-costs and raw-material (from railway station to magazine). We get in this way the so-called procuring-price of raw-material (I-st clearing price).
- 10. Losses and output :
 - a. Spinning is to give the following output:

fineness: co	erse:	colored:
Merino (up to the fineness 60 's) Crossbred (up to the	94 %	93 %
fineness 58/60 's) Synthetic fibres with a	93 %	92 %
mixture of cellular tissue		92 %

b. Double treating (skani dvojmo) is to give a 98 % output.

For further treating (skani), e.g. 4 x (II.) a calculated loss is directly expressed in an amount of Kcs and not in output in %, i.e.

to the price of yarn Kcs 200.- is added Kcs 1,50
- " - Kcs 300.- - " - Kcs 2,50
- " - over Kcs 300.- - " - Kcs 3,-- for 1 kg

This means that when calculating the price of the yarn double treated (skana) as e.g. 56/4, we shall find in the price-list the price pertaining to No. 56/2 and we shall add to this price the rate for II. treating (skani) of the No. 28 (final) and besides it; the rate for the loss of material, i.e. either Kcs 1,50 or Kcs 2,50 respectively Kcs 3,-- according to the price of the yarn No. 50/2.

- c. Reeling (motani) is to give a 99 % output.
- 11. As there have been no changes in spinning margins regarding worsted yarns, we did not separately calculate material expenses as these are covered by the pertaining margins when these planned prices were calculated.
